

Sean Despain

Multidisciplinary Product Builder & Creative Technologist

Heber, UT · seandespain@gmail.com · (435) 695-6954 · linkedin.com/in/sean-despain-560316116 · seandespain.com

Product builder who takes ideas from concept through design, development, brand, and launch, usually alone or with a small team. Founded and operated five ventures spanning a wellness app live on the App Store, an internal business-operations platform, a 50-person construction staffing company, an international CBD company, and a bilingual retreat/conservation program in the Peruvian Amazon. Comfortable owning the full surface of a product: UX and visual design, front-end and back-end code, brand and content systems, SEO and conversion, and the operating decisions that keep a business running.

CORE COMPETENCIES

Product Product architecture · User flows & progression systems · Freemium/paywall design · Booking & conversion funnels

Development Unity (C#) · Firebase · Next.js/React/TypeScript · Astro · Node.js · OpenAI API · iOS/Android releases

Brand & Creative Visual identity systems · Typography systems · Original character/IP design · Campaign production

Marketing SEO · GA4 & conversion tracking · JSON-LD structured data · Lead-generation funnels

Business Team building (50+ contractors) · Hiring & sales training · Financial strategy · Nonprofit program direction

SELECTED WORK

Peace Life · App + Marketing Site (2021–Present)

Designed and built a 140+ scene Unity/iOS wellness app (Firebase auth/data, remote-content system, freemium paywall) live on the App Store, and its marketing site (peacelifehealing.com) end to end: visual system, GA4/JSON-LD instrumentation, and App Store launch assets. Directed 300+ marketing/education multimedia assets.

Jarvis (Legacy Command Center) · Multi-Org Business Platform, Next.js (2025–Present)

Designed and built a business-operations dashboard serving four organizations as isolated workspaces (CRM, payroll, calendar, reporting), an integration-health monitor (QuickBooks, an internal portal API, Netlify, ElevenLabs), and a server-side voice assistant. Closed an authentication gap and fixed a production SSR hydration bug rooted in server/browser timezone handling.

Leads to Sales AI Trainer · AI Sales-Training App, Unity + OpenAI (2026)

Built for Leads to Sales while serving as its hiring manager and sales trainer, and works for any company's sales team: reps practice 11 sales scenarios against an AI prospect and get scored and coached after every session.

W.I.P Services · Founded the Company + Built Its Digital Systems

Founded a construction staffing agency that scaled to 50+ employees and contractors (2017–2019); later built the company's public website, lead-generation funnels, and the portal API that feeds Jarvis.

Organización Qinty · Bilingual Retreat & Conservation Site (2026)

Direct this nonprofit program in Peru (Natural Worship, Director of South America) and built its bilingual site around a three-tier content-verification system that blocks unconfirmed claims from publishing.

Once Upon a Princess · Brand + Booking Site (2026)

Designed ten original characters and a full visual system, then built a single-goal, privacy-conscious booking funnel and passed a full WCAG AA accessibility review.

Nectar CBD · Founder & CEO (2019–2021)

Founded a CBD company that became the first to sell CBD into Japan; directed branding, packaging, and distribution.
